MAIL BID LIST #3  
AND FIXED PRICE LIST

CLOSING FEB 26 1983

The contents of this auction list should interest collectors of Puerto Rico, Sales Tax Tokens, Latin-American and European tokens, and Nevada and Iowa Merchants' Tokens among others. However, there should also be just about something for everybody. Good hunting. Your comments are invited.

PUERTO RICO

1. HDA STA YSABEL, 10 (Almudes), Alomar Hermanos 1883. Nickel alloy 28mm. Unlisted so far by either Gould and Higgle or Vaia. Vaia lists the Hacienda. This one is a VF with a light coat of verdigris in the field. (\$60-75).

2. San Jeronimo Hilton, San Juan, P.R. The 1966fm \$1 slot gaming token issued by the Franklin Mint. This is a specimen strike, one of the prooflike pieces taken out for presentation purposes. Nice brilliant prooflike with some lt. finger smudges. (\$15-18).  
2-A. Fajardo Taco Maker, Game Token, brass 25mm (Video Game) EF.  
2-B. Hacienda De Café San Juan Bta. 5 (Almudes)(Vaia #446) brass, 37mm, a cleaned VF (\$5-9).

SALES TAX TOKENS

3. I.D. CAFE, State Sales Tax 1/3¢, alum. 23mm. A previously unknown private piece and so far the only one. The probability is that it is from Chicago, 1935. I have initiated its research. VF

Sales Tax Tokens are listed by numbers from both my small book and CHITS AND CHISLERS as follows: AL-8(#16). Those preceded by (-) are from the little book, those by a (#) from CHITS. Sometimes there is only one or the other. Previous sale bids are given as well.

4. AL-8(#16) 1 Mill, grey fibre w/dble circles, VF (\$4 in unc).  
5. AL-10(#17) 1 Mill, paleblue fibre EF but pale blue is plainly visible (\$6 in unc).  
6. AL-11(#19) 1 Mill bright blue fibre EF (\$33 in unc).

#### CONSIGNMENT DIRECTIONS

Consignments of exonomia are sought for future sales. My fees are as follows: items selling at \$10 and over - 20%, \$3 to 9.99 - 25%, and under \$3 - 35%. When shipping your material please also send a list of the items you are consigning and keep one for yourself.

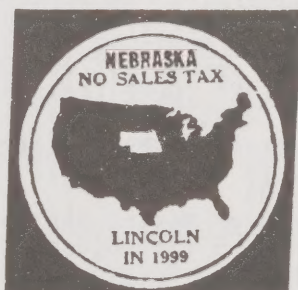

Generally speaking the intent of a mail auction to get you a high return on your consignment. The better the material you consign the more you will make. Batches of common and circulated Sales Tax Tokens will not bring high prices nor will lots of wooden nickels and other common series that you are familiar with. If you have any questions about the efficacy of consigning a particular lot, please feel free to write and ask. No charge. Thanks.

### MAIL BID LIST #3

#### PRICES REALIZED

The major piece for this sale was the Puerto Rico plantation token #1 - Alomar Hermanos, Hacienda Santa Ysabel, 10 (Almudes). The \$250 winning bid was apparently the highest price paid so far for any token of that island. It had not been listed by any numismatic researcher, although related descriptions had been made by Eklund in 1936, but mistakenly identified as being from the country of Costa Rica.

#### Sales Tax Tokens

The market is clearly moving in the direction of "key" state issues in uncirculated condition. The top-selling token was again the New Mexico 5 Mills black fiber (#91), going at \$91, down 10% from the last auction. The next highest bid was \$77. The reduction in bidding is seen as related to announcements that a few advanced collectors intend to sell such in the near future and uncertainty by collectors as to whether there may be a large lot coming onto the market. As of this writing there is no evidence of any "hoard" of such pieces, those being sold coming only from individual collectors. Recent enumerations of the pieces suggest that there are only six to eight pieces in individual collections, all in uncirculated condition. But since state issues were often issued in the millions, collectors are justifiably wary. Another state issue holding its own is the Alabama 1 Mill dark blue fiber (#6) in unc going at \$34 and up from the last sale.

The other area of advance were "new finds", most notably the I.D. Cafe, 1/3¢ State Sales Tax (#3) and the Nebraska Anti-Sales Tax cardboard (#84), bringing \$65 and \$25 respectively. The former has not yet been attributed, although Chicago is still the logical locality. Others suggested are Michigan and North Carolina. It came from a single collector in the Chicago area with little or no knowledge of the Sales Tax Token collecting field.

The market for Illinois metal provisional tokens can be described only as "soft", with a few of the older "keys" only holding their own. A Casey in VF went for \$20.50 (#18) and El Paso (#19), Ladd (#29) and Wyoming (#39) sold for \$8.75, \$10 and \$9. Most others went for rather low prices despite their ratings of R-4 or better. The Kankakee token, rated at R-6, is apparently more common than thought. four of them being listed for this sale. The Cessna Aircraft tokens, not commonly offered for sale, went for \$30 and \$25 respectively.

#### Merchants' Tokens

Tony's Place, Juneau, Alaska (#279 - Benice #68) went for \$42.55, a fraction over the next bid of \$42. Nevada tokens, although those offered were among the least scarce, were the objects of rather competitive bidding. While the bidding range was between \$4 and \$17, my belief is that they are undervalued. Nevada is one of the historical "old west" states with a very low resident population like Arizona, Montana and Alaska. The tokens suffer somewhat from the lack of a comprehensive catalog.

The broad spectrum of Iowa tokens offered gives a price range of from \$2 to \$20 and the prices realized should give a collector some approximation of those tokens' market values. Canadian and Soap tokens, while few in number on this list did rather well.

#### World-Wide Tokens

American countries which received the most interest were Chile, Costa Rica and Peru. European tokens which sold well were from Germany and Luxembourg.
